

VELAMMAL - SURAPET

KINDER GARTEN COMPARTMENT

THEME: WATER

MONTH: OCTOBER

Dear Parent,

Green greetings from Velammal.

This month October our theme is on “water”. Children will learn about water and how to use water carefully.

Some of the activities planned for this theme include

- ❖ Looking at picture books charts, flash cards etc. and talking about water.
- ❖ Singing songs and listening to stories.
- ❖ Doing craft activities like drawing and painting.
- ❖ Learning English through the theme.
- ❖ Out door and indoor activities for large and small motor development.
- ❖ Music, dance and drama.

At Home

You can help your child understand the concept by taking your child out to beach/river and talking about them. Let your child help you in washing clothes, vessels and cleaning the floor. You could also make a small garden in your home so that your child can learn to water plants.
